BASIC-ABSTRACT:

NOVELTY - The holder (2) is push-fitted onto the shower curtain rod without the need for drilling or adhesive. It fixes the curtain on the rod and has a double-sided hanging device so that part of the hook (3) is in the inner wet area and the other part is in the outer dry area so that the curtain separates the utensils hanging from the hook.

USE - For shower accessories such as towels and shower gels, etc.

ADVANTAGE - Lets articles be hung up inside and outside the shower curtain. Avoids the need for drilling holes in tiled walls.

DESCRIPTION OF DRAWING(S) - The figure shows a double-sided hook.
